**Attachments:** NYU Langone Health MyChart - Letter re mask.pdf

I have a sensory integration disorder, which is a medical disability that causes me not to be able to wear a mask or a face shield. I carry around a doctor's letter (attached) to that effect, that also states that I already had Covid, which would indicate that there is no significant health risk, as the CDC clearly states that covid reinfection is rare. I have already flown several times without a mask on airlines that agreed to accommodate me.

CDC Guidelines and federal laws exempt someone like me from wearing a mask. Additionally, DOT instructed the airlines to allow people like me to fly without a mask.

Federal ADA laws require that you provide an accommodation for disabilities.

I would like to travel on your airline.

Can I travel on your airline without a mask?

Or can you provide an accommodation that will allow me to use your airline?

Thank you in advance.

Dear Mr. Abadi,

Thank you for contacting TAP Air Portugal.

We regret the delay in our reply and that our service did not meet your expectation.

We attempted to search for a reservation under your name and were unsuccessful. Did you make a booking to travel with TAP or were you inquiring about traveling with TAP?

As per the CDC all passengers are required to wear a face mask on board. <https://www.cdc.gov/quarantine/masks/mask-travel-guidance.html>

Yes, certainly there are exemptions for people with disabilities who are not able to wear face masks. TAP would not deny your travel if the proper airline procedures were to be followed. All passengers with a medical disability who require special services/exemptions on TAP are required to fill out our medical form. We regret that this form poses an inconvenience but, it is an airline policy followed by all.

Furthermore, you were not advised to be tested for COVID due to your disability. All passengers travelling to/from Europe require to be tested for COVID-19. The testing policies are not implemented by the airline but by each country that the airlines travel to/from. This information is available on each countries government webpage, the US State Department website, as well as TAP's website.

If you are still looking to travel with TAP you can make your booking on TAP's website and fill out the requested medical form, all can be done electronically.

We reiterate our apologies and hope to welcome you onboard soon.

Thank you!

TAP Air Portugal

---

That is a violation of US ACAA laws, as it is discrimination against a disability.  
People without disabilities are not required to do all that.

Dear Sir,

In order to request to be excused for the use of the face mask for short periods of time it is needed to have a reference code and the MEDIF filled in by your medical assistant.

If you prefer you can make a reservation through our webpage with the functionality "time to think" that has the cost of about EUR20 and then we could postpone the deadline for the issuance until feedback from our medical team.

It will also be required for you to deliver a PCR negative test within the 48h of the departure as well as the answering of a COVID-19 query within the 72h of the flight.

We will be waiting for your reply in order to proceed.

Muito Obrigada/Thank you kindly

Melhores cumprimentos /Best Regards  
Carla Cardoso

CAUTION: External mail. Be careful with links and attachments.

I will not be booking anything until I know if you will allow me to fly.

Please answer my question.

This is the fourth time I presented this question to your airline, and you have yet to respond.

You are bound by the Air Carrier Access Act ACAA, and by U.S. law I shouldn't have such difficulty getting an answer and flying without a mask.

I will await your response.

Thank you,

Aaron Abadi

Dear Mr. Aaron Abadi,

TAP Air Portugal thanks you for your preference.

In reference to you e-mail, we inform that in order to proceed with any we will need a booking reference to be able to evaluate your request.

Best Regards,
